

# GemiTint ED

**Gravimetric Easy Dispensing machine**

## TYPICAL FEATURES

- Automatic or semi-automatic dispensing of recipes.
- Standard suitable for dispensing up to 20 components.
- Manual or automatic valve/scale positioning.
- HMI terminal with database for limited storage of simplified recipes.
- Product feed by means of gravity, electric/ pneumatic pumps or based on tank overpressure.

- Recipe dispensing or single ingredient filling with self-learning parameters (e.g. coarse and fine flow shutoff points, weighing tolerance, etc.).
- Weighing scale (accuracy up to 0,1 gr. depending on the scale) is height adjustable to enable dispensing in containers of different sizes.
- Non explosion proof as well as explosion proof executed.

Coarse flow

Fine flow
